

Strong. Reliable. Ready.

Professional security for people, property and businesses across Fiji.

AI-assisted image from a supplied photograph; new branding shown.

Local roots. A lasting commitment.

Haganah Security Services is a Fijian-owned security company registered under Haganah Enterprise Pte Ltd. We provide security services throughout Fiji for people, property, businesses, events and assets.

Our family's security-industry experience spans more than 20 years. Our story is rooted in the work of our founder, the late Vilikesa Raqio, and a continuing commitment to protecting businesses, homes and communities.

OUR MISSION

To protect people, property and assets through reliable, customer-focused security services shaped around each client's needs.

OUR VALUES

Integrity

Honest communication and responsible conduct.

Professionalism

A professional presence and strong customer service.

Accountability

Clear duties, supervision and responsible leadership.

Local knowledge

Fijian ownership and an understanding of our communities.

SECURITY MASTER LICENCE SML199 / CLASS MD

Licence period: 21 December 2025 to 20 December 2026

Protection to suit your requirements.

01 Static Guarding & Access Control

Security for the people coming and going, and the property you are responsible for. We work with you to define guarding duties and access arrangements that suit your site.

02 Mobile Patrol & Emergency Support

Discuss mobile patrols and emergency response support around your property, operating hours and security requirements.

03 VIP & Executive Protection

Security support for private clients and executives, planned around the person, setting and nature of the engagement.

04 Event Security & Crowd Control

Security support for organisers who need to look after guests, staff and the smooth operation of their event.

05 Resort & Hotel Security

Professional security that recognises the importance of both safety and customer service in a hospitality setting.

06 Corporate Security Services

Protection for commercial workplaces, people and assets, with a professional approach to staff and visitors.

07 Construction Site Security

Security support for construction companies and property developers looking after people, equipment and site access.

08 Risk Assessments & Security Consulting

Practical security discussions for organisations reviewing their current arrangements or planning for a new property, project or event.

Tell us what you need protected.

We work with you to understand your environment, priorities and coverage before agreeing the right security arrangement.
